# Vancouver Island Real Estate Statistics

The Vancouver Island Real Estate Board (VIREB) records statistics on sales processed through the Multiple Listing Service® (MLS®) system. Monthly statistics reports called "Graphstats" display numbers of sales, average prices, average days on the market, etc., and are available for single family homes, lots, and condominium apartments/townhouses/patio homes. Reports are produced for areas, called Zones, included within the Board jurisdiction. They are: North Island, Campbell River, Comox Valley, Cowichan Valley, Nanaimo, Parksville/Qualicum and Port Alberni/West Coast, and the entire Board Area.

VIREB offers a one year subscription option for these statistics. The Graphstats reports are available for purchase, either Monthly or Quarterly for one year. Also on the website at [www.vireb.com](http://www.vireb.com) find monthly Sales Summary information and historical Sales Summary statistics at no charge.
